DID YOU KNOW?

Henry Leland, a former manager of the Cadillac division of General Motors, formed The Lincoln Motor Company in August 1917. Leland named the new company after Abraham Lincoln, his hero and for whom he cast a vote in 1864. Lincoln's first source of revenue came from assembling Liberty aircraft engines, using cylinders supplied by Ford Motor Company.

After the war, the Lincoln factories were retooled to manufacture luxury automobiles. The company encountered severe financial troubles during the early 1920s and was bought out by Ford Motor Company in 1922. The purchase of Lincoln was a personal triumph for Henry Ford, who had been forced out of his second company by a group of investors led by Leland.

Rick's Pick

I am currently reading The Eye Of Heaven, by Clive Cussler. It came out in September of this year. The story is written with the characters Sam and Remi Fargo. They find Viking ships and evidence the ships sailed to Mexico and even to Colombia, South America.

Cussler has written over 249 books since 1965. His books have been published in more than 40 languages in more than 100 countries. His is most famous for his continuous series hero, Dirk Pitt, who first appeared in 1973.

Cussler writes books mostly for the royalties which finance his underwater searches. He is an internationally recognized authority on shipwrecks and founder of the National Underwater and Marine Agency, (NUMA) a 501-C3 non-profit organization (named after the fictional Federal agency in his novels)

that dedicates itself to preserving American maritime and naval history. He and his crew of marine experts have discovered more than 60 historically significant underwater wreck sites including the first submarine to sink a ship in battle, the Confederacy's Hunley, and its victim, the Union's Housatonic; the the U-20, the U-boat that sank the Lusitania; the Cumberland, which was sunk by the famous ironclad, Merrimack; the renowned Confederate raider Florida; the Navy airship, Akron, the Republic of Texas Navy warship, Zavala, found under a parking lot in Galveston; and the Carpathia, which sank almost 6 years to-the-day after plucking Titanic's survivors from the sea. NUMA turns over all artifacts to state and Federal authorities, or donates them to museums and universities.

In addition to being the Chairman of NUMA, Cussler is also a fellow in both the Explorers Club of New York and the Royal Geographic Society in London. He has been honored with the Lowell Thomas Award for outstanding underwater exploration. Cussler often inserts himself into his novels as an obscure boat captain saving the day.

REDUCE, REUSE, RECYCLE!

Did you know?

- That Americans use 4 million plastic bottles every hour, yet only 1 bottle out of 4 is recycled?
- That approximately 1 billion trees worth of paper are thrown away every year in the USA?
- That it takes approximately 1 million years for a glass bottle to decompose in the landfill, if at all?
- That recycling 1 aluminum can saves enough energy to power a TV for 3 hours?
- It is against the law to dispose of computers, monitors, TVs and printers (as well as parts of any of these items) in a recycling or trash container! The City of Greenville holds twice annual electronics recycling days to collect these items. Or, you may drop off electronics anytime at any Greenville County recycling center.

Ways to Help...Reduce What You Use

The City of Greenville will deliver the tabs to the organization so they can recycle them and use the funds to support their non-profit programs. Please drop off your tabs in the collection box at the Stone Avenue Recycling Center.

ARE YOU LOOKING TO GIVE THIS SEASON?

The U.S. Marine Corps Reserve Toy for Tots Program is directed by the Commander, Marine Forces Reserve, with the assistance of his staff, from the Marine Forces Reserve Headquarters in New Orleans, Louisiana.

The mission of the program is to collect new, unwrapped toys during October, November and December each year, and distribute those toys as Christmas gifts to needy children in the community in which the campaign is conducted. The program delivers, through a new toy at Christmas, a message of hope to less fortunate youngsters that will assist them in becoming responsible, productive, patriotic citizens.

"We make a living by what we get. We make a life by what we give." — Winston S. Churchill

"The generosity of giving to a child and putting a SMILE on their face during this Christmas season.... PRICELESS!!!" — Rita Voedisch

"Happiness doesn't result from what we get, but from what we give." — Ben Carson
